## The Small Boy and the Boy.

According to the scientific authorities, the small boy becomes a boy at the age of sixteen. At that age he ought to put away small-boyish things and put on the bashful awkwardness of semi-intelligent boyhood. At all events, he ought to know that his presence is not desired by young men who come to see his sister. We do not expect this amount of intelligence in the small boy, and it is often necessary to bribe him with candy or to persuade him with elms before he will consent to treat his sister with common humanity. But the 16-year old boy usually perceives when an area of courting—accompanied with gradually increasing pressure in the region of the waist, and marked depression of the parlor gas, is about to set in, and thereupon discreetly, even if socringly, withdraws.

A maker of tombstones in Suffolk, lately received a call from a countryman who wanted a stone to place over the grave of his mother. After looking around some time, and making sundry remarks about the taste of his deceased mother, he finally pitched upon one which the stone-cutter had prepared for another person. "I like this one," said he. "But," said the other, "that belongs to another man, and has Mrs. Perry's name cut on it; it wouldn't do for your mother." "Oh, yes it would," said the countryman. "She couldn't read! And, besides," he continued, as he observed the wonderment of the stone-cutter, "Perry was always a favorite name of hers!"

A mother once beautifully said: "I remember the new and strange emotions which trembled in my breast when, as an infant, my first-born was folded to my heart. The thrill of that moment still lingers; but when he was 'born again,' clasped in my arms a new creature in Christ Jesus, my spiritual child, my son in the gospel—pardoned, justified, saved forever—Oh! it was the very depth of joy—joy unspeakable! My child was a child of God! The prayers which preceded his birth, which cradled his infancy, which gilded his youth, were answered."

A Granger stood at the corner of Greenfield's Main Street, yesterday, curiously watching the peanut man as he methodically turned the crank of his roaster. After expectantly waiting until patience ceased to be a virtue, the unsophisticated tiller of the soil blurted out: "Halloo you feller, why don't you play suttin'?" [Turners Falls Reporter.]

A Minneapolis boy was sent by his teacher, a woman, to the superintendent to be whipped. The lad suspected the contents of the note and hired a boy he met on the road to deliver it, giving him ten cents. The superintendent didn't discover his mistake until he had whipped the boy.

POPULATION OF THE WORLD.—Latest accounts give the population of the world at 2,350,000,000: America, 72,800,000; Europe, 587,000,000; Asia, 789,000,000; Africa, 188,000,000; Australia and Polynesia, 6,300,000.

The manufacturers of oleomargarine would find their article more salable if they were to put a few hairs in it. A commodity that is to be sold as butter should have all of butter's peculiarities.—[Small Talk.]

A new piece of music, entitled "I hear the Angels calling," has made its appearance in Boston. A wicked paragrapher says, "All right—let 'em take the pot. A pair of devils is the best we've got."

"What is to be done with the devil?" asks the Buffalo Express. And the Hackney replies, "If he is through taking proofs let him distribute brevity until it is time to go for the mail."

A plain man said: "Before my conversion, when I prayed in the presence of others, I prayed to them; when I prayed in secret, I prayed to myself; but now I pray to God."

Moody is sick from overwork. Newspaper men seem to be about the only persons who can stand the strain of unceasing combat with the devil.

Over 500,000 bottles of Dr. Bull's Cough Syrup are sold every season, and thousands of persons saved from an untimely grave.

Rosina Voikes has the most bewitching laugh. Letta the cutest kick, and Kate Claxton the finest "shiver" in the profession.

## A Sad Story.

A Parisian couple had been married three months, and were very happy. One evening they were invited to a wedding, and while at supper with the bridal pair and the wedding guests the husband quarreled with his father-in-law over some money matters. They returned to their home about midnight. The lady bitterly reproved her husband for having quarreled with her father, and the husband replied in a passion, "If you prefer your parents to me, you had better go and live with them," on which she expressed her intention to go to her father's house. She opened the door, and as she was in her evening dress, he placed his overcoat over her shoulders to prevent her catching cold. On the following morning he sent a change of clothing to his wife; but on the servant arriving at the house of the parents, it was discovered that nothing had been sent there of the young wife. Monsieur was immediately filled with alarm. All her friends were visited, but in vain; no trace of her could be found. At length they resolved to go to the morgue, and on entering that sinister-looking building, the remorseful husband saw the body of his beautiful young wife exposed on one of the marble slabs. She had been picked up by one of the dredging barges of the Seine. The poor creature was only twenty-two years of age.

DIogenes in Texas.—Not long since a party of visitors inspected the Poor-house. Among the inmates was a venerable-looking old man, whose face indicated perfect happiness. He seemed to be perfectly contented.

Said one of the visitors, "You seem to be satisfied with your lot?" "I am," he replied. "I have a source of consolation that is denied to most men."

"Ah!" said the visitor, "you look forward to a blissful future beyond the grave."

"Yes," responded the old man, "but I also find much comfort in the proverb that says one man's loss is another man's gain. It makes me happy to think that I never lost enough to do the feller that found it much good."—[San Antonio Express.]

Who Made It?—Sir Isaac Newton a very wise and godly man, was once examining a new and very fine globe, when a gentleman came into his study who did not believe in God, but declared the world we live in came by chance. He was much pleased with the handsome globe, and asked:

"Who made it?" "Nobody," said Sir Isaac; "it happened."

The gentleman looked up in amazement at the answer, but he soon understood what it meant.

"Is he a good horse to go? 'Thee would be pleased to see him go,' said the conscientious Quaker. A bargain was struck, and a bawky horse changed owners. His purchaser, in high dudgeon, went back upon the Quaker. He defined his position: "I have not lied to thee, friend. I told thee, there would be pleased to see him go. Now wouldn't thee be pleased to see him go?"

A Saco (Me.) jurymen in the trial of a criminal case before the Circuit Court recently grabbed his hat and started for the door when the prisoner entered a plea of "not guilty." The Judge called him back, and informed him that he couldn't leave until the case was tried. "Tried?" queried the juror, "why, he acknowledged that he is not guilty."

Thirty-old years ago a child was born in a Welsh poor-house. A few days ago the charity-boy, since the hero of many strange adventures and vicissitudes, dined with the Prince of Wales and received an ovation from the Royal Geographical Society. Was there ever any wilder romance than the life of Stanley?

A curious candle used in Alaska is a fish eight inches long, almost transparent, and very fat, the fat being pure white and very sweet. The Indians dry this fish, then light it at the tail, and it burns with a clear, sparkling flame, which the wind will not extinguish.

It is told of an absent-minded professor at Leipzig that on one occasion, after watching the pulsations of a frog's heart, he threw away the watch he held in his left hand, and put the frog in his pocket, not discovering the error until asked for the time of day.

The sweet singer of Michigan was smart enough for the Chicago interviewer. "You were the oldest of the family, were you not?" "No, of course not," replied the poetess; "my father and mother were both older than me."

## Won after Twenty Years' Waiting.

A gentleman from Waxahachie, now visiting in our city, informs us that considerable excitement was created in the social circle of his town last Wednesday, the 12th inst., by the marriage of Mr. Nicholas Sims, a wealthy farmer of Ellis county, aged seventy, to Mrs. Dunlap, an esteemed lady of Waxahachie, of some sixty summers. In the State of Tennessee they had, in the early days of childhood, lived together—in youth they had loved each other with all the fervor of the heart's passion, and when grown, rumor says, plighted their faith, but the pledge was broken, and the lovers separated. The lover married another, whose death he mourned several years ago. The lady twice bowed at the altar, and twice has wept over the grave of a departed husband. After forty years they met in this distant State, and though his form had lost its youthful pride and vigor, and her nice rosy cheek and sparkling eye have somewhat faded, the love of former days was aroused from its slumber, and at the residence of Dr. Sweet, the bride's son-in-law, in the presence of a few old friends, the broken pledge was fulfilled. Such a remarkable renewal of earthly attachment is seldom found, and challenges even fiction for an equal. Time, we learn, has dealt kindly with the couple, and they look as though they may yet enjoy many days of wedded bliss. —[Dallas (Texas) Commercial.]

PERSEVERANCE A GREAT POWER.—A lady hired an old woman, says the Denver (Col.) News, named Charlotte, who had the most exalted opinion of her own individuality. Whenever a subject was under discussion in the family, Charlotte would be sure to state her own superior method of proceeding in such matters. On one occasion the lady was talking of sending the children to school, when Charlotte put in her ear as usual—

"Lor! missus," she said, "what nek you pay money for to send the child to school? I got one smart boy named Johns, but I larn him myself."

"But, Aunt Charlotte," replied the lady, "how can you teach your child when you don't know one letter from another?"

"How I teach him? I jist nek him tek de book an' set down on de do' and den I say, 'Jonks, you tek ye from dat book, much less leggo him, an' I skin you alive!'"

THE DESTINY OF OLD SHOES.—Many people wonder what is done with the old boots and shoes some itinerants are at so much trouble to collect. They are cut up into small pieces, which pieces are put for a couple of days in chloride of sulphur, which makes the leather very hard and brittle. After this is effected, the material is washed with water, dried, ground to powder, and mixed with some substance which makes the particles adhere together, as shellac, good glue, or thick solution of gum. It is then pressed into molds, and shaped into combs, buttons, knife handles, and many other articles.

HOW TO BURN LIME IN HEAPS.—Lime, where there is no kiln, may be burned in heaps, laid upon a foundation of dry wood, and made in alternate layers of wood and limestone. A heap is covered with sods, or of coarse hay and earth, as charcoal pits are, and burned in precisely the same manner, except that the fire is made to burn briskly instead of smoldering; the lime is completely burned in three days. Lime may be spread upon the land to advantage in the Spring.—[American Agriculturist.]

The inquiry often comes, "Where did the Murphys get the idea of pinning on a blue ribbon?" In the book of Numbers, 15th chapter and 28th verse, can be found the idea: "Speak unto the children of Israel, and bid them that they make them fringes in the borders of their garments throughout their generations, and that they put upon the fringes of the borders a ribband of blue."

A sympathetic but inquisitive young man, who was visiting a county prison, gently asked a girl prisoner the cause of her being in such a place. "Oh," said she, with a contemptuous look of her head, "I stole a watermill, and got off safe, but, like a fool, I went back under the stream that turned it, and was arrested." The sympathetic young man left immediately.

When a boy does something funny and you laugh at it, he will invariably keep doing it twenty or thirty times more till you have to knock him down with something.

You need not tell all the truth unless to those who have a right to know it all. But let all you tell be truth. —[Horace Mann.]

## Mr. Stephens' Retort.

On a certain occasion, while party lines were closely drawn, and political feelings were running high, Mr. Stephens was on the stump for Congress, battling with a Mr. H., of Greensborough. Stephens was a Henry Clay man and a Whig. What hope had he that he could carry that old Democratic stronghold? Yet he battled away. And it was an old and entertaining sight to see the two contestants on the stand together—Stephens, five feet four inches high, weighing ninety-six pounds; Maj. H., six feet, two inches high weighing two hundred and forty pounds.

They were in the strongest part of the Democratic camp; and here the Major indulged in bits of pleasantry which he knew would be relished by his old constituency. Solid argument could not have been of much use there. Yet Stephens managed to get him heated, whereupon the gigantic Major turned to his pugnacious antagonist, and with considerable of a flourish, said:

"Why, you little wasp, I could button those big ears of yours back and swallow you whole."

But before the multitude had time to laugh at the coarse, rude remark, Stephens retorted:

"If you did that thing, sir, you would have more brains in your stomach than you ever had in your head!"

The untutored eloquence of those districts could understand and appreciate a good thing. Stephens was elected to Congress by over three thousand majority in a district which had never before favored one of his political stripe.

A woman with an eventful history is one of the parties to a divorce suit at San Francisco—Mrs. Juanita de C. Stender, a quiet, middle-aged music-teacher. She was during the war a Confederate spy, and in the course of her wanderings met and married Gen. Hugh J. Campbell, now District Attorney at Dakota. In 1870 he obtained at New Orleans a divorce from her on the grounds of adultery and intemperance, obtaining also the custody of their two children. She stole them and ran away to Europe, where she married an artist named Herman Stender, with whom she went to Guatemala, where both were employed by the government. They quarrelled, and he had her discharged from her position. Reaching San Francisco with only \$10 in her possession, she managed to support herself and the child until afterwards born to her till her husband came to the same city and opened a studio. Then she sued him for maintenance, and he responded—or some one else—by taking in succession the three children from her, and placing them in different institutions, whence she is striving to obtain them by writs of habeas corpus, with, thus far, the fortunes of law against her.

If the dead could speak we should know whether matrimony really is a blessed state, or even a state in which a man may be blessed. The following is somewhat detrimental to this theory: A lady had lost her husband, but she had left off her mourning and went to parties. Being asked by one of those gentlemen who attend soirees as mediums who she would like to see in spirit, and the departed suddenly rose out of the centre of the carpet, as it were, and stood before the whole company—

"Oh! James, tell me are you happy?" "Very."

"Are you happier now than when on earth?" "Much happier."

"Then, James, you must be in heaven."

"No; I'm in hell." —[New York Herald.]

The wonderful Temperance reformation that is sweeping over many of the towns and villages of the land is making itself apparent not only in the rescue of numbers of the victims of the jail. In some places the criminal courts are almost without occupation. This is alarming to the keepers of grogeries and all vendors of fire-water, but it is encouraging to the friends of law and order and morality and religion. —[N. Y. Observer.]

A young lady teacher in a Sunday school in this city recently caught a boy smiling. She asked:

"What are you laughing at?" "Nothing, mum," was the answer. "I know better," said the teacher, severely; "now tell me what it is?" Johnny looked frightened and mutteringly said:

"I—I—see your newspaper sticking out, mum."

The teacher sat down suddenly and arranged things.

## Failed.

Yes, I am a ruined man, Kate! every thing gone at nothing to show for the trouble and toil of the weary years that are past.

Nothing and more and money have taken wings and fled.

This very morning I signed away the roof from over my head.

I shouldn't care for myself, I'm used to the world's rough ways.

I've dug, and dug, and plodded along, but all my meekness has done.

But I think of you and the children, and it almost breaks my heart.

For I thought so surely to give my boys and girls a splendid start.

So many years on the ladder, I thought I was near the top.

Only a few years longer, and then I expected to stop.

And put the boys in my place. Kate, with a radiant face.

But now I must give the prospect up, that comforting dream is dead.

"I'm worth more than my gold," O, Kate, you're good to look at it so.

But a man isn't worth very much, Kate, when his bill is turning to snow.

My poor little girls, with their soft white hands and innocent eyes of blue.

Turned adrift in the heartless world—what can and what will they do?

"An honest failure!" indeed it was, dollar for dollar paid.

Never a creditor suffered, whatever people have said.

Better a rag and a bonnet—clear than a palace and flag of shame.

One thing I'll leave to my children, Kate, and that is honest shame.

What's that? "The boys are not troubled? They are ready now to begin.

And gain as another fortune, and work through thick and thin?"

The noble fellow already I feel I haven't so much to lose.

Their courage has lightened my heavy load of misery and despair.

"And the girls are urged it was honest? They'd rather not dress so fine.

And think they did it with money that wasn't honestly mine.

They're ready to show what they're made of—up to earn and save!"

My blessed, good little daughters, so generous and brave!

And you think we wouldn't feel, Kate, while we have each other left.

No matter what possessions our lives may be bereft.

You are right, with a quiet conscience and a wife so good and true.

I'll put my hand to the plow again, and I know we will pull through.

[For the Interior Journal.]  
A MOTHER'S DREAMING.  
BY MISS BEILE WILSON STAFF.  
A sleeping baby in a cradle lay.  
And a fond, young mother o'er it smiled.  
With a heart all full of golden hopes  
For the future of her darling child.  
She smoothed aside the sunny curls  
And kissed his forehead broad and fair,  
And wrestled his pillow, as he slept,  
With fancies of happy rich and rare.  
His childhood should be one bright dream,  
One sunny song of golden joy.  
And pleasure cluster thick and fast,  
Around the pathway of her boy.  
Then on through youth's shining years  
She followed his glad, eager tread,  
And his gleaming honors at his feet,  
And held the laurel o'er his head.  
She saw his lips grow cold and firm,  
And eager light spring to his eyes,  
And watch him upward, upward reach,  
To grasp ambition's gleaming prize.  
And now, with all a mother's joy,  
She saw him scale the heights of fame,  
And stand triumphant, flushed and proud,  
With glory wreathed about his name.  
In all her sunny, smiling hours,  
Of love and pride, there were no fears,  
No thought of "dark and stormy days,"  
Of pain and death, and grief and tears.  
Not one upspring of the heart,  
No prayer that God might bless his child,  
No hope that he should ever be  
The pathway of the unfilled.  
Forgetting that "was God who gave"  
"Twas her charge, this treasure bright,

**FAILURES.**—In no period of our history has there been so many financial failures as the present. Men are driven into bankruptcy by the scores daily, and the end is yet afar off. Howell, Gano & Co., one of the oldest, and for a long time the most reliable hardware firms in Cincinnati, succumbed a few days since with liabilities of over \$200,000. J. M. Wright, proprietor of the Potomac House, Harrodsburg, has shut up shop, with \$2,000 liabilities and no assets. The Blue Grass Pork Packing House, Lexington, has gone under and will not be able to pay 40 cents on the dollar. The Farmers' and Traders' Bank of Lexington, suspended payment on Monday, and closed its doors. A number of suits, amounting in the aggregate to \$100,000 had been brought against the Bank in the last few days, which had unsettled the faith of the public and a run was anticipated. It is said that the Bank will be able to pay all its depositors in full; as the loans and discounts amount to over \$200,000 besides a considerable amount of real estate. Still another failure is reported at Lexington, Gilbert & Ross, Pork Packers. Liabilities, \$105,000; assets, \$50,000. A petition has been filed to throw the firm of Moss & Semple, Louisville, into bankruptcy. It will be remembered that old man Moss of the firm has been indicted in 18 cases for forgery. Geo. W. Penn, of Casey, with liabilities of \$5,850, and assets of \$2,875, and Wm. Edwards, of same county, with liabilities of \$5,250, have filed their petitions in bankruptcy.

**BRIEF NEWS NOTES.**—The Steamer City of Chester was burned at Memphis last week. The entire cargo and two lives were lost. The farmers of Fayette held a meeting on Monday and instructed their Representatives in the Legislature to use all their diligence in securing the passage of the Whipping-Post Bill. A tornado swept over Atlanta, Ga., last Sunday while the worshipping congregations of the city were at the various churches. The Episcopal church was blown down, and eighteen of the congregation seriously hurt. All of the other churches suffered more or less, but not so severely. The City Hall was unroofed, the roofs of the Depots unsettled, and the damage done private residences was very great. A violent snow storm raged in Wyoming Territory last Saturday, the snow in some places drifting to ten or fifteen feet high. All the R. R. trains were snowed in. A most fiendish murder by a band of lynchers was perpetrated last Monday in Rockingham county, Va. A colored woman, who was engaged in the robbing of a barn, and its subsequent burning, was taken from the officers by about 200 masked men, who bent a black jack upon her, and the other end around the woman's neck, and let loose the tree. She was tossed clear over the tree and landed on the opposite side. The sapling was propped up with a fence rail, and the woman left hanging for two days.

**MISS ALICE HICKERSON**, of Harlan county, Ky., some time since engaged herself to one Stephen Marriott, of the same county, a youthful "blood" with more money than principle. The course of true love apparently ran as smoothly as any of such courses do, and Miss Alice was so sure of becoming Mrs. Marriott, that she had made up her trousseau, and even gone so far as to bake the wedding cake. But even at that late hour the faithless Stephen began to cogitate over the serious business he was about to enter into, and the result was that the marriage did not take place. Miss Alice, after giving him ample time to redeem himself, brought a breach of promise suit for \$10,000. The case was tried in the Hardin Circuit Court the other day, when the jury gave the wretched Alice \$3,000 with which to soothe the aching of her tender heart.

**A GLANCE AT OUR LEGISLATIVE REPORT** for Saturday and Monday, will show how our impotent Representatives are frittering away the people's time. Nothing, absolutely nothing, was done on those two days, but it is said that the few members that were left in Frankfort, amused themselves by throwing paper wads at each other, and doing other school-boyish tricks too silly to mention. A greater fraud than the present Legislature was never imposed on a long suffering people, and the sooner the "bulging brows" of the members point homeward, as Logan would say, the sooner will the people of Kentucky be able to draw a healthy breath.

**DR. LUKE P. BLACKBURN** has formally announced himself through the columns of the *Courier-Journal* as a Democratic candidate for Governor of the State of Kentucky. His address is well written, embodying the views he entertains upon public questions of the day, in a sound and business-like manner. He says he has no political aspirations further than the one he now avows, and if elected will serve out his term and return to private life.

When the question of erecting a monument over the grave of General Nelson came up in the Senate the other day, Senator White, of Madison, took occasion to denounce Nelson as a brutal and heartless officer, and unworthy the name of a soldier. The correspondent of the Cincinnati *Commercial* and Col. Goodloe, denied Mr. White's charges and as good as called him an arrant falsifier. On Monday, the Senator arose to a question of privilege, reiterated his charges against Nelson and spoke of his assailants as having none of the qualifications of gentlemen. The probability that blood would be drawn from the face of the Moon was strongly hinted at, but the cloud of war has apparently blown over. It is safe to say that Nelson will get no monument, and it is equally safe to say that he ought not to have one.

**HON. S. S. COX**, generally known as Sunset, remarked when the President's veto of the river bill was received by the House, "that it was a fraud by a fraud." In his speech on Tuesday he declared his intention, on all occasions, of calling attention to the fact that Hayes is a usurper, and ought to be kicked out of the White House. He ridiculed Hayes' boasted Civil Service Reform, and contended that he had never made an appointment since his installation except through personal motives. Mr. Cox also took occasion to denounce his colleague, Hewitt, for his recent defense of Hayes' title. We glory in such a man as Cox, and hope he will continue to agitate the question of the rape of the Presidency.

A couple of students at the University of Virginia, one the son of a Missouri Senator, and the other a son of a Virginia General, fell out a few days ago over a game of billiards, the lie was passed, and the injured party immediately challenged the other to fight a duel. The challenge was accepted, and bowie knives were named as the weapons. A secluded spot near Charlottesville was chosen as the field, and the young men and their seconds arrived on the scene, but before they got fairly to work, officers who had heard of the affair, arrived, and took the whole party into custody. After they got out of jail they will, no doubt, feel satisfied to let the little matter drop.

The Trustees of the Cincinnati Southern want two million more to complete their road, and have moved on the Legislature to authorize the means of raising the funds. R. M. Bishop & Co., Governor, Trustee and grocery merchant, will do his level best to get the money. The fact is, there should be no hesitancy about the matter of funds. The nearly-completed road below Somerset is passing away at the rate of thousands of dollars a month.

The Chesapeake & Ohio R. R., which runs from Richmond, Va., to Huntington, W. Va., a distance of 420 miles, will be sold on the 2nd of next month. The probability is that Messrs. Huntington & Co., will purchase it, in which event the Big Sandy R. R. will be, and hastened to completion. The building of this road is of the utmost importance to the Chesapeake & Ohio, and an advantage to the public that can not be overestimated.

Both Houses have passed bills for the payment of Southern war claims reported under act of 1874 by the Secretary of the Treasury. The following local claimants are in the list: Lincoln county—Rev. Jos. Ballou, \$286 56; E. B. Caldwell, \$8 01; Wm. Yates, \$67 55; Pulaski—A. T. Curd, \$296; John R. Wait, adm'r of Cyrenus Wait, \$1,768 43.

A bill known as the Long Bond bill has passed the Senate. It provides for the issue of \$100,000,000 of coupon bonds of \$25, \$50 and \$100, redeemable in coin 50 years from date, and bearing 4 per cent. interest. These bonds are designed especially for the poor man who wishes to lay by his earnings in a safe and reliable investment.

The New Hampshire State Election was held on Tuesday and resulted in the election of Prescott, Governor, by about 4,000. This is a reduction in the usual Republican majorities. The Legislature is also Republican by about twenty members.

The stoppage of trains by snow storms on the Northern Pacific in the middle of the first month of Spring is about as good argument for the importance of the Texas Pacific as a reasonable man ought to want.

**WILSON FAIR**, the constable who killed the negro waiter, Henry Smith, at the Verandah Hotel, Nicholasville, without a show of provocation, was arrested in Marshall, Mo., Wednesday, whether he had fled to escape arrest.

**MR. W. A. JOHNSON**, of the Paris *Citizen*, has sold his interest in that paper to his partner, T. L. McChesney, Esq., and will retire this week the old Paris Saturday Night.

The Philadelphia Mint has begun to grind out the new silver dollars, and is now daily increasing the currency of the country at the rate of \$150,000.

The Legislature is talking about passing a law to prevent the legal collection of debts for a couple of years. Such a law would do the debtor class no good, beyond giving them that much longer to pay debts that they will be no better able to pay at the end of two years than they are now. As a general thing, the man who would take advantage of a law of this kind has but little intention of paying his debts if he can avoid it. A stay law is not needed.

**DOOR-KEEPER POLK** of the House of Representatives, who was charged with a number of crooked transactions, has been vindicated, the committee appointed to investigate his case having failed to find any thing against him. It is understood, however, that the Committee will recommend the abolition of the office of Door Keeper and transfer its duties to the Sergeant-at-Arms.

**EMMETT G. LOGAN**, the *Courier-Journal's* war correspondent has been complimented by being elected an honorary member of the McCreary Guards. Hurrah for the bold soldier boy!

The Legislature will spend a week electing a Public Printer. Why not give the office to S. I. M. Major, and be done with it?

#### ROCKCASTLE COUNTY NEWS.

**Mr. Vernon**  
MARCH 13, 1878.  
ROCKCASTLE DEMOCRATIC TICKET.

COUNTY JUDGE—G. W. MCCLURE.

COUNTY CLERK—D. N. WILLIAMS.

COUNTY ATTORNEY—SAM. M. BURDETT.

SHERIFF—JOHN STEPHENS.

JAILER—SAMUEL THOMPSON.

ASSESSOR—J. W. KIRBY.

SURVEYOR—F. WALLIN.

CORONER—JNO. ALLEN.

GOING TO BE REVENGED.

"All-Fools' Day" is coming on apace.

We mean to have revenge for that Valentine then. Look out!

OF COURSE IT IS.

Home again! After two weeks "knocking about" through the country, we conclude that Mr. Vernon is the best place in wide, wide world.

GENERALLY SATISFIED.

The nominations made by the recent County Convention seem to be giving nearly general satisfaction. In some instances there is a little grumbling, which we trust will soon pass away.

HE'S GLAD AND SO ARE WE.

We will be pardoned for expressing the pleasure which we feel at the success of our friends, Clay Kaffman and W. A. Burnside, in Garrard at the recent primary election. We hope both will be elected.

SPRING AND CORN PLANTING.

We had a few days of fair weather last week which put thoughts of Spring and corn-planting into the farmers' heads, but Sunday the clouds thickened, the rain began to fall, and it has continued falling since.

DEATHS.

Adam Griffin, after a brief illness, departed this life at his residence in this county, on the 24th ult., in the 41st year of his age. Wm. Buford, an old citizen, aged 83 years, died at his residence on the 6th inst.

A STATEMENT OF THE CASE.

The Englishman washes off the war paint, the Russian stuffs his pockets with plunder, the Turk crosses the Bosphorus to take a smoke, France looks forward now to her big show, Congress makes silver money over the veto—but still the Legislature don't adjourn.

SETTLING WITH THE TEACHERS.

Dr. J. J. Brown was busily engaged last Saturday, dispensing the school funds to the teachers of the county. They are a deserving body of men, and as we saw each receiving his share, we only wished that it might have been twice as large. Teachers are entirely too poorly paid.

BEAUTIFYING THE BEAUTIFUL.

Our legal friend, J. K. McClary, has greatly improved the grounds in front of his residence just out from town, making that which was before, neither still. The yard has been leveled, and several mounds thrown up and trellises erected for flowers, vines, &c. When Mr. McClary, with her usual excellent taste, has put the finishing touches to it by arranging the flowers, trailing the vines, &c., the place will be indeed an inviting one. The beauty of a residence is greatly enhanced by its surroundings.

IMITATING THE BIRDS.

The Spring birds have chosen their mates, and a large number of the young folks of Rockcastle, it would seem, are doing likewise. The following list of licenses issued since our last report is furnished us by the County Clerk: C. C. McClure to Mary Currier; J. W. Hanel to Mary Ruliford; R. McPherson to Sarah Owens; L. Weaver to M. Stringer; Allen Hitt to Eliza Fish; Calvin Payne to Martha McClure; E. M. Denny to Annie Reynolds; H. Young to Alvina Cobb; J. H. Hood to Sarah Rutledge; Wm. Giles to Catherine Davis; H. Spivey to Annie Maloney.

TOOK HIM IN.

Frank Lutes, Deputy Sheriff, arrested last week, a suspicious character who gave his name as Frank Johnston. After being taken into custody, and required to give an account of himself, he said his name was Frank Lawson; that he had stolen a canoe in Breathitt county, and that a reward of \$200 had been offered for him. He further said that certain parties had been in pursuit of him, but he had managed to elude them. After hearing the fellow's tale, Lutes concluded there must be a screw loose somewhere, and started with him to Breathitt to investigate matters.

RETURNING THANKS.

This is the first opportunity that has been afforded our correspondent to acknowledge the high compliment recently paid him by the gallant Democracy of old Rockcastle. At their Convention held here on the 25th ult., they saw fit to name him as their candidate for the office of County Attorney at the approaching August election. He accepts the honor thus bestowed with all the grace he can command, and with profuse thanks. If elected, he will discharge the duties of the office to the best of his capability; guarding with faithful care the interests of the whole people. Now, for August!

ACCOUNT OF THE BURNING OF A STEAMBOAT.

At Memphis, last Thursday morning, at 3 o'clock, we witnessed the burning of the Steamer, "Chester," of the Anchor Line. The sight was one of the grandest we have ever seen—grand, in spite of the terror it inspired. We stood on the bluffs on the Memphis side. The flames of the burning steamer lit up the scene for miles around, while the smoke settled in a dense black cloud behind us over the city. The bosom of the Mississippi looked like a floor of gorgeous silver sheets; the woods on the farther shore resembled forest pictures done in dim silver. The noises made by the burning horses and hogs were truly pitiable to hear, and were not unlike the wails of distressed human beings. At 5 o'clock, the boilers of the vessel burst with a sound like an earthquake. Only two lives were lost in the conflagration—though at the time we left Memphis, it was reported that twenty-four persons had fallen victims to the flames and the waves.

PERSONAL.

M. J. Miller and J. J. Williams, left here Monday morning for Louisville, to purchase their Spring goods. C. Crooke, Esq., of Pine Hill, returned home Monday evening, after a several weeks absence at Hot Springs, looking the better for his trip.

W. E. Lee, with D. G. Beers & Co., is visiting his old friends in this county, his former home. In Dallas, Texas, last week, we were delighted to meet our old friend, Hugh B. Rains, formerly of Boyle county, whom we had not seen for years. Hugh is still the same genial, clever, accommodating gentleman. Long may he wave! At Dallas, we also met Mr. Oscar Williams, who has many friends in this county. He was looking well, and assured us that he was doing the same way. Isaac A. Stewart, a graduate of the Louisville Law School, has returned home, and will shortly begin the practice at this place. He is a young man of ability and promise, and we hope to see him prosper. He is now a graduate of two Law Colleges, having previously received a diploma at Lexington, Kentucky.

#### NEW ADVERTISEMENTS.

### TENNESSEE BEE HIVE!

#### FARM & COUNTY RIGHTS.

#### TO ALL WHO HAVE BEES.

The undersigned, having purchased of the Patented the exclusive right in this State for nearly all of the counties of Kentucky, now offer to supply persons with Farm and County Rights and with the privilege to make the same. The honey season is rapidly approaching. March is the time to examine your bees, to see that they have enough honey to last them until the flowers come, or to see that they have not too much. If too much, the bees have not room enough to raise their brood, from the fact that there is too much honey and a part should be taken out with a honey sifter, and the comb replaced, or other empty comb put in its place to receive new brood.

We claim and can show that in five minutes, any one can critically examine or divide a colony in this Hive.

It has been before the public seven years, and has been tried by thousands, and has no instance in it failed to give the highest satisfaction to the bee-keeper. Those who have tried it will use no other. Practical bee-keepers pronounce it superior to all others combined, and even a novice in bee-keeping finds it pleasant and profitable to raise bees and secure honey with the Tennessee Hive.

SOME OF ITS ADVANTAGES.

In construction differs from all *Monthly Comb Hives*, because the keeper has only to open the door of the Hive and pull the frame, bees, honey and all out at once, when they can be examined, fixed, shored back instantly, the door closed and it is safe. In one minute, you can see how much honey there is in a hive, take out a frame filled with honey, and place an empty frame in its place to be filled again in a few days. In five minutes, you can divide a swarm, artificially, and thus secure a new swarm, but, on the contrary, double it. In a favorable season, from four to six colonies can be made from one hive. All idle drones can be shut out, and the honey they would eat can be saved. Perfect ventilation is secured in Winter and Summer. It is so simple in construction that any ordinary carpenter can make two or three in a day, and the cost of the material is about seventy-five cents per hive. Honey can be taken from the top of the hive without coming in contact with the bees. The bees can be fed with a bee feeder that goes with the hive, without opening the hive or attracting other bees.

MOTH-PROOF HIVES.

There is no such thing as a "moth-proof" hive," and all intelligent Apiculturists agree to this fact. Any one who claims to have such is ignorant of bees or is a knave, for where bees can get in a hive, so can moth millers, and even the bee itself carries the moth eggs into the hive on its legs. The only way to prevent moths is to keep strong and healthy swarms. That only will save your bees from the moth.

Those who want to engage in a light, pleasant and profitable business, should buy a County Right of us. Every one who keeps bees should buy a Farm Right. We will sell a Farm Right, with the privilege of manufacturing Hives for your own use, or, if you prefer, we will sell you a Farm Right and then furnish you Hives at \$2 each. Don't delay this matter if you want to raise all the bees and honey you want, cheaply and pleasantly.

HONEY EXTRACTOR.

We have also a Honey-Sifter, that we sell at \$5 each. Address

NOLAND & BRIGHT,

AN ASTONISHING FACT.—A large proportion of the American people are today dying from the effects of Dyspepsia or disordered liver. The results of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of braggarts and your friends, and try one bottle of Green's August Flower. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western Continent. Bohon & Stagg, Stanford, Ky.

TWO MEN KILLED.—The boiler of a Spike Mill near King's Mountain Tunnel exploded on Wednesday morning, tearing the Mill to pieces, and instantly killing two white men, Messrs. Newton and Diamond. Negligence on the part of the Engineer in not keeping sufficient water in the boiler caused the explosion.

POLICE JUDGE.—Judge J. B. Dennis is announced in this issue as a candidate for re-election to the Police Judiciary. He has made us a most acceptable officer, and by his firm decisions has greatly reduced the amount of law-breaking in the town limits. We owe it to a good officer to evince our appreciation of his course by a genuine endorsement. Let us, then, elect Judge Dennis by a big majority.

THE SKEGMOGRAPH.—Judge S. M. Boone and Prof. Moore gave a couple of entertainments here this week which we regret to say, were not patronized as largely as their merits deserved. Their collection of pictures is quite extensive and embraces views of all the prominent places in the world, which thrown with the power of the Skenograph on the canvass produce most pleasing effects.

IN JAIL.—Joshua Dye, a somewhat noted individual of the Highland district, was tried this week for carrying concealed weapons. The verdict of the Jury was that he should go to Jail and pay \$50 fine, but he pleaded his own case so eloquently and persistently, that the Judge granted him a new trial which is set for next week. In the meantime he languishes in Jail as no one could be found sufficiently willing to see him at liberty as to append his name to a bail bond.

SPRING HATS.—Jim Davis has the best selected stock of Spring Hats ever brought to Stanford, which he has marked low down. Go examine and be convinced.

We have added to our stock a full line of Buggy and Wagon Harness, Gear, Bridles, Saddles, Bridles, and all kinds of repairs for Harness.

WEAREN & EVANS.

O. & M.—Major R. S. Brown, the stirring Southern traveling agent for the Ohio and Mississippi Railroad, was in town this week and favored us with an advertisement of his excellent road. Observe the advantages it offers.

NEW INVENTION.—Messrs. W. T. Stone and John Taylor, showed us the model of a dust carrier for Saw Mills which the latter has recently invented. It obviates the expense of keeping a man to remove the saw-dust as it accumulates and can be constructed with a few dollars expense. They shipped the model to Washington yesterday and made application for Patent.

AS THE pleasant days come on apace, we naturally feel inclined to cast off our faded garments and substitute something more suited to the season and better looking. Knowing this fact, our tasty friends, Hayden Brothers, have brought to this market a full line of elegant hats for gentlemen, of the latest spring-styles, and they are much prettier than the old shapes. We intend to adorn our axes with one of them pretty soon.

JUST as sweet and lovely as the 'cucies now in bloom, are those pretty spring poplin goods just opened by Hayden Brothers, and they are almost as cheap as calico.

This firm is constantly receiving something new in the way of spring goods of all kinds. We notice that the ladies have already begun to make purchases there, and these goods are the first in the market, and came direct from the fashion centers of the country.

KILLED BY LIGHTNING.—During the severe storm, on Monday night, lightning struck the house of John Prall, colored, who lives near the Hanging Rock bridge on the Horseville turnpike, killing instantly his wife and his stepson, Joe Gaskins, a young man of about twenty-two years. A little three-year old child of Prall was severely stunned and will no doubt die. There were several others in the house, but none of them were injured. One end of the house was torn away by the shock.

SHEEP KILLING DOGS.—One day this week a pair of bird dogs belonging to Mr. Jas. B. Owens, got among the sheep of Dr. T. B. Montgomery and succeeded in killing eight or ten lambs. The Doctor charged upon the dogs with his double barreled gun and killed one, and would have made way with the other had not Mr. Owens intervened and promised to pay for the lambs if the dog was spared. Mr. Owens thought a great deal of the dogs on account of their fine hunting qualities, but says he would have done the same that the Doctor did had he been similarly annoyed.

MYERS HOUSE.—This model Hostelry changed hands this week. Mr. James B. Owens having sold his remaining two years of lease to Messrs. A. S. Myers and E. H. Burnside. The Myers House, under the old management, and during Mr. Owens' occupancy, made a reputation for excellence that extended throughout the State, and it is safe to say, now that Mr. Myers, the ruling spirit of the former management, and Mr. Burnside, who has considerable experience in such matters, that its good name will be fully sustained. Mr. Owens will commence at once to build on his farm near town, and will hereafter devote his time to agricultural pursuits.

FIRE.—The dwelling house of Mrs. Permelia Hughes, situated about three miles from town, took fire from a cooking stove pipe and burned down in a few minutes. The house and contents were valued at about \$2,000, on which there is an insurance of \$1,250. About a third of the property was saved. Mr. John Tucker's house, near Hall's Gap, was burned on Saturday night. A box of ashes in which were some coals, was left to be fanned by the heavy winds into flames, from which the house caught. There was no insurance, and the loss falls heavily upon Mr. Tucker, who is reduced to very straitened circumstances by it.

ATTORNEY GENERAL.—There is a strong desire among the many friends of our gallant townsman, Col. W. G. Welch, to have him become a candidate for Attorney General of this State, and he is daily importuned to announce himself. Col. Welch's legal attainments fit him peculiarly for this position, for as a lawyer, he makes foremost among the profession in this District. He is a man of fine education, splendid address, and possesses a certain magnetism that makes him popular with all classes. The bar at Stanford and the visiting lawyers hold him in high esteem, and believe that his many qualifications would have long since been recognized by the people of the State were it not for his reticent and modest disposition. We hope the Colonel will yield to the importunities and become a candidate, as we know of no man whom we had rather see honored, in case he should run, than himself.

PERSONAL.—Mrs. J. S. McAllister has returned with her daughters to Georgetown Female College, that institution having resumed since the disappearance of Scarlet Fever. Mr. John S. Hughes and wife are now guests of the Burnett House, Cincinnati. Mr. Hughes' business arrangements will require him to remain in the city for several months. Miss Annie Richards, at the St. Asaph. Miss Annie Van Arglen, of Mercer, is visiting Mr. E. A. Terhune. Dr. L. S. Burnett, of Bodhead, called to see us Monday. He let a two-dollar William as a gentle reminder of his visit. Mr. Henderson P. Young, the clever Republican candidate for Judge of the County, called to see us Wednesday. H. C. Kaufman, Esq., the prospective County Attorney of Garrard, was in town this week, en route to Harrisonville. Mrs. M. J. Nevin and Mrs. E. B. Caldwell, have gone on a visit to Mercer county. Dr. J. H. Wesley made a short business trip to Louisville this week. Miss Minnie Crow was in town a few days ago. A certain salesman could hardly contain himself he was so delighted. Mr. J. W. Dickerson is preparing for the Ministry. Mr. James B. Owens seems delighted to be free of the vexations of Hotel keeping again. Mr. and Mrs. John M. Hall have gone to Somerset to attend the bedside of sick relatives. Mrs. Vins Hays, a most attractive young lady, after a short visit to Mrs. Wesley Evans, returned to Crab Orchard yesterday. The pretty Miss Jeannie Duncan, of Lancaster, who has been quite a belle in Frankfort society for the last month or so, arrived yesterday to spend a short time with her sister, Mrs. R. C. Warren.

HEAD QUARTERS for Horse Collars, Harness, Trace Chains, Back-bands, Blind Bridles, Plow Lines, Horse Strings, &c., at prices on solid rock-bottom at Wearen & Evans'.

PUT IN JAIL.—Mr. Embury, a colored Southern traveling agent for the Ohio and Mississippi Railroad, was put in Jail last evening, charged with having a stolen pistol in his possession. He claims that he bought it from Walker Montgomery, colored, but as he has skipped out Mit has a fair prospect of remaining in the jug till the Grand Jury meets. How easily the matter could have been disposed of had our feeble-minded Legislature done their duty.

MARRIAGES.

THOS. WILSON, Esq., whose birth place is North Carolina, and Miss Mary D. Martin, who first saw the light in Pennsylvania, were married in this country yesterday.

MR. JAS. W. JONES, a rising young attorney of Lebanon, and a newspaper correspondent of note, was married this week to Miss Maggie Allen, of Washington City.

DEATHS.

MR. HENRY HALE, a half-brother of Mrs. John M. Hall, died in Pulaski this week, of measles.

OUR Harrisonville correspondent gives an account of the death of Mr. Wm. Lucas, on Monday last. A better or truer man never lived than Mr. Lucas, and his loss will be felt throughout the county. He was a member of the Democratic Executive Committee of the county, and was an earnest supporter of the grand old principles of the party. We grieve with the afflicted family in their bereavement.

RELIGIOUS.

Pope Pins IX was a rich man. He died possessed of twenty-three millions of dollars.

Rev. J. M. Bruce will preach at McKinney's Station on the 5th Sunday in this month.

During the last ten years the Methodists have built 4,978 new churches at a cost of \$30,000,000.

Rev. Thos. Dudley, who is now 87 years old, continues to preach at the "Old Baptist Church," at Georgetown, of which he has been pastor for fifty years.

Rev. John C. Harrison, Presiding Elder of the Lexington District of the Northern Methodist Conference, died at his home in Covington, this week, aged 68. He had been in the ministry about 40 years.

The repairs of the Presbyterian Church now going on are rapidly approaching completion, and the building will be ready for occupancy in a week or two. The internal improvements are simply magnificent.

About \$30,000 of the \$60,000 needed for the relief of the Southern Methodist Publishing House, at Nashville, has been raised, and the balance is expected in sixty days, as the Conference has promised that it shall be forthcoming. The House has been restored to confidence in commercial circles.

The meeting at the Methodist Church still continues. There have been two additions to the church, Mrs. Mock and Doctor Cox, and on Sunday Mr. Evans christened three little infants, the children of Dr. T. B. Montgomery, E. A. Terhune and E. K. Shoemaker. There is nothing sensational in the preaching of Mr. Evans. He presents the solemn truths of the Bible with great force and earnestness and leaves the sinner to choose whom he will serve.

LEXINGTON COURT DAY.—There was an immense crowd in town and hundreds of cattle were on the market. The general panicky feeling in money matters created a dullness in the trade and many were left over unsold. Best feeders brought from \$4.25 to \$4.50. Some mules sold at \$200 per pair. Horses in better demand.

Noticed, hanging in the upper rounds of the Capitol, a most magnificent skin of a Canadian sheep, raised by the Hon. J. S. Wesley, member from Lincoln county. The sheep was three years old, and has produced twenty pounds of wool at a cutting. The wool is long, very white, and very soft, and was admired by all who saw it.—(Yeoman.)

Squire J. S. Murphy tells us that a thorough examination revealed the fact that the entire peach blossom in the county had been killed, and that in many cases the trees too, are dead. The damage was done during the severe weather of last January. He also says that the chances for cherries are very poor, as nearly all of them have been killed.

DIX RIVER ON A TEAR.

We had a heavy fall of rain last Monday night, which caused our little river to expand very much.

A COW WORTH HAVING.

Mr. J. W. Farris, of Garrard county, has a cow that has been giving milk for seven years in succession, and has dropped but one calf during the time.

NO SHOW FOR BOLLIES.

The people of our town are glad to know that G. W. Bollitt will not run as an Independent candidate in August.

WE thought that he was too smart for that. Our town went to his aid in the primary election, but if he had run as an Independent he wouldn't have got a single vote.

ORGANIZATION OF A SINGING CLASS.

The meeting held at Bright's School-house on Sunday evening last, for the purpose of organizing a singing class, owing to the inclemency of the weather was not largely attended. Henry Walters, as Chairman, called the meeting to order, explained its objects and asked that due decorum be observed. On motion, Robert Luce was made Secretary, and Messrs. H. G. Bruce and Collins Gentry, Assistants. After singing a few familiar hymns, the meeting adjourned until next Sunday at 2 o'clock, P. M.

DRUMMERS.

The merchants say there have been more drummers here within the last three weeks than there were all last year. Business is business. Mr. Fowler was here yesterday and erected a monument over the grave of Miss Mary Ida Jones.

MORE NEW STORES.

Mr. Wm. Carson, Jr., will open a confectionery and grocery store next week. This will be the fourth new store that has been opened here since December, 1877.

There are now two good boot and shoe shops in town and one harness shop. A No. 1 tailor and tinner are very much needed.

C. O. BAND.

Last night the Crab Orchard Band assembled on the balcony of the Kennedy Hotel and played some beautiful pieces. This band has more music than any other we ever heard. It is not the great noise or sound produced that inspires the soul as they play, but it is music, harmonious music.

MURPHY'S WILL HAVE PLENTY TO DRINK.

If there ever was any thing plentiful in the East End it is certainly water—an abundance of water. There were fearful winds, lightning thunder and rain Sunday night and yesterday evening and last night. One of the hardest rains ever had was that of last night; it rained in torrents. Each side of Main and Lancaster streets looks like small rivers and the roaring and noise of the muddy waters can be heard for hundreds of yards as they pour over the Singleton Falls.

A BAD BOY.

Saturday morning a lad about 13 years old came to town from Casey county riding a valuable mare without a saddle. He said he was going to Tennessee, and desired to sell the animal. At first he asked \$100, then \$75, and finally offered the animal for \$30. He contradicted himself several times, and was arrested on suspicion and sent back home. He said he was Mr. Geo. Coffey's son, had become tired of staying at home, and the morning he left had gone out to work, but concluded he would rather go to Tennessee than work any longer for his father.

EVERYBODY ORATING.

Thursday night the Murphy meeting was in full bloom again, and about 400 signed the pledge. Mr. Alex. Lusk entertained the large audience with one of his excellent speeches. W. O. Hansford made a brief and telling speech. Mr. Bobbitt followed suit with his Robbittian eulogies of Temperance, and of the choir who furnished the music for the Murphy meeting. The choir was led by Mrs. Maye-an, accompanied lady and a teacher in Tarrant College.

DEATH OF ONE OF THE WOUNDED.

Mike Ely, who was shot through the body on election day, died on last Saturday night, having lingered just a week. This gives a graver character to the day's doings.

WELCOMING NEW COMERS.

Mr. Pendleton Jenkins has taken possession at the Stone House Farm, recently purchased from the estate of Geo. Riffe, dec'd. Mr. J. is a gentleman of the old school, and his wife is one of the true stock of old Kentucky matrons. Notwithstanding they hail from Garrard, we expect to find them pleasant and peaceable neighbors, and we bid them a cordial welcome.

DEATH OF A GOOD MAN.

Our old and esteemed friend, Wm. Lucas, died at 10 o'clock on Monday morning, after a brief illness of about ten days. His disease was pneumonia. Mr. L. was widely known—especially in political circles. We deem it proper to state that he was one of those who united with the church under the influence of the preaching of G. O. Barnes, and that he gave evidence that his last were his best days.

KILLED BY LIGHTNING.

During the thunder storm on Monday night, a house about 25 miles from town, on the Stanford road, occupied by negroes, was struck by lightning and nearly demolished. There were five persons in the house at the time. The mother was sitting directly beneath where the flash entered, and was instantly killed. The current ran along a head joint of the floor and killed a boy who was seated opposite his mother. A man seated on a stairway so severely shocked as to be deprived of the power of speech until morning. He is probably not materially injured. Two children, sitting in front of the fire, and near the line on which the fluid crossed, escaped with a terrible fright. A dog, which had taken refuge under the floor, was killed.
